

The New Grange

Excellence in
Dementia Care

About The New Grange

The New Grange Care Home is located in the south coast town of Worthing in West Sussex, and close to the main hospital.

Its owners, Haven Care Home Management have continually invested heavily to create a beautifully furnished care home for up to 48 people aged 65 or over, living with dementia.

The home provides high quality 24-hour care in comfortable and friendly surroundings.

Food is home cooked with a varied menu, and a choice at each meal.

Life at The New Grange is enhanced with a variety of activities, both in the home and outdoors.

People Say The Nicest Things

"The New Grange care home has always provided the best care for my mother.

The strive individually and as a team, to be the best"

Daughter of Resident

Our communal areas include the main lounge where residents can spend their time just relaxing, undertaking activities, or being entertained. There is also a small "quiet" lounge which is going to be developed into a sensory lounge in 2024.

The New Grange boasts an amazing enclosed rear garden. It is spacious and includes a large decking area that has garden tables and chairs with parasols to provide shade. The area is well populated with potted plants and flowers.

The garden is used for basic outdoor relaxation, activities and we have many garden parties to celebrate major events and resident's birthdays.

All rooms are furnished to the highest standard, and in addition to the comfortable bed with bedside table, there is an armchair, wardrobe, chest of drawers and TV point. There is a call bell for a resident to use when assistance is required.

Every room can be enhanced and made more homely with the resident's personal effects, and the front doors are of different colours, and with personalised nameplates so residents find it easier to locate their room.

We have 48 rooms some with the option of double occupancy.

Dining is not just about eating food, although nutrition is very important, especially for those living with dementia. It is also a social occasion, so we endeavour to make it exactly that. In addition to the main dining room residents can also choose to eat in the lounge, or in their own room.

All our meals are freshly prepared and cooked on site by our chef, and we provide a choice at every meal, and for every course during the day.

We can cater for all dietary requirements, including special diets, low fat, diabetic, low sodium, gluten free and vegetarian.

Life at The New Grange

In addition to providing the best care at The New Grange we also strive to maximize the quality of life of our residents with our activities programme.

We believe it is important to spend as much time with our residents, and less time with paperwork. But accurate care planning is essential for their well-being and safety. This is why we use the best in digital care planning systems.

Our activities Co-Ordinator ensures that every week there is a varied programme of events to keep residents fully interested and occupied. The events take place in the home, or the garden and we are also able to go out and about in our own minibus.

Reminiscence therapy is very important for people living with dementia and we have our own dedicated room. The items within the room will bring back memories and encourage discussions about the residents' past.

In the home we have many visiting entertainers who always get the residents involved singing along and dancing. Our days out include locations such as Amberley Museum, Swanbourne Lake, Shoreham Airport and Brighton.

We make a point of celebrating everybody's birthday and other major events. We also have a hair salon in the home where professional stylists come in and residents can be pampered at their leisure.

We would love to show to around our beautiful home, so please contact us to arrange a visit, full details on the back page.

People Say The Nicest Things

"The entertainment / activities team are brilliant and you can see what they have been up to on social media - fantastic photos"
